

MCSTC UPDATE

May 1, 2020

After our meeting with the TDSB on April 30th, there are a couple of updates regarding work that can be done within the terms of the legislation 8220.

As many of you may know by now, some of our members are back at work doing work that has been deemed acceptable through a legal opinion in regards to regulation 8220. The MCSTC is happy to see our members returning to the worksite in what ever capacity they can while keeping safe. We look forward to the day when we can get all our members back to work in a safe and healthy environment.

In Solidarity ,
MCSTC Executive Board.
